ABOUT UDHAYAA TEXTILE PROCESSING

Premium Woven Fabric Processing. Engineered for Quality. Built for Global Markets.

WHO WE ARE

At Udhayaa Textile Processing, we specialize in premium woven fabric processing solutions for domestic and export markets. With expertise in dyeing, coating, printing and specialty finishing, we help brands and manufacturers create fabrics that combine aesthetics with performance. From product development to bulk production, our focus remains on quality, consistency and customer satisfaction.

PREMIUM PROCESSING

Advanced woven fabric processing with consistent quality and precision.

SPECIALTY FINISHES

Functional and performance finishes tailored to customer requirements.

EXPORT QUALITY

Manufacturing designed to meet international buyer expectations.

CUSTOM DEVELOPMENT

From sampling to bulk production with technical support throughout the process.

- ✓ Precision Manufacturing
- ✓ Advanced Processing
- ✓ Reliable Quality
- ✓ Customer Partnership

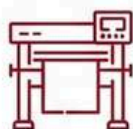

"We transform woven fabrics into high-performance textile solutions through precision engineering, technical expertise and uncompromising quality."

SERVICES & CAPABILITIES

Complete Woven Fabric Processing Solutions. From Pretreatment to Premium Functional Finishes

Udhayaa Textile Processing offers a complete range of woven fabric processing solutions engineered for apparel, uniforms, home textiles and industrial applications.

From pretreatment and dyeing to specialty finishing and technical enhancements, every process is designed to deliver consistent quality, superior performance and export-ready standards.

GLOBAL STANDARDS & COMPLIANCE

Internationally Recognized Standards | Verified Quality | Responsible Manufacturing

Every fabric we process is backed by internationally recognized quality, environmental and compliance standards through our certified manufacturing ecosystem. These certifications demonstrate our commitment to quality, sustainability, responsible manufacturing and continuous improvement for customers across domestic and international markets.

CERTIFICATES

OEKO-TEX STANDARD 100
Textiles tested for harmful substances.

GOTS
Global Organic Textile Standard.

FSC Chain of Custody
Responsible sourcing and traceability.

GRS
Global Recycled Standard.

OCS
Organic Content Standard.

ZDHC
Supplier to Zero

ZDHC Supplier to Zero
Responsible chemical management.

ZDHC
Wastewater Performance

ZDHC Wastewater
Verified wastewater compliance.

TÜV Rheinland
Independent laboratory verification.

Casca Higg

Higg FEM
Environmental performance assessment.

Casca Higg

Higg FSLM
Social and labour management assessment.

WHY IT MATTERS

International certifications independently verify our commitment to quality, sustainability, responsible manufacturing, environmental stewardship and globally accepted production standards.

Quality Assured

Sustainable Manufacturing

International Compliance

"Quality isn't claimed—it is independently verified through globally recognized standards."

GREIGE FABRIC SUPPLY SOLUTIONS

Premium Greige Fabrics Through Export Standard Certified Manufacturing Facilities

At Udhayaa Textile Processing, we provide premium greige woven fabrics through a trusted network of export standard certified manufacturing facilities. Every fabric is carefully selected for its construction quality, consistency and manufacturing excellence before entering our processing workflow.

By combining reliable greige fabric sourcing with advanced textile processing, we deliver complete woven fabric solutions for domestic and international markets.

01

EXPORT STANDARD CERTIFIED MILLS

Source premium greige woven fabrics through trusted export standard certified manufacturing facilities that consistently meet international quality expectations.

02

DIVERSE FABRIC CONSTRUCTIONS

Access a wide range of woven fabric constructions, yarn counts, blends, widths and weave structures suitable for apparel, uniforms, home textiles and industrial applications.

03

QUALITY VERIFIED SELECTION

Every greige fabric is carefully evaluated for construction accuracy, consistency and performance before entering the textile processing stage.

04

COMPLETE TEXTILE SOLUTION

From greige fabric sourcing to dyeing, specialty finishes, functional coatings and final delivery, we provide a seamless end-to-end woven textile solution.

- ✓ Export Standard Certified Facilities
- ✓ Premium Greige Fabrics
- ✓ Wide Fabric Constructions
- ✓ Quality Verified
- ✓ End-to-End Processing
- ✓ International Buyer Ready

The foundation of exceptional fabrics begins with carefully selected greige materials and uncompromising manufacturing standards.

STANDARD FABRIC CONSTRUCTIONS

A curated selection of our standard woven fabric constructions engineered for apparel, workwear, uniforms and industrial textile applications.

CARD 01

OE COTTON FABRICS

Durable open-end cotton woven fabrics suitable for uniforms, workwear and general textile applications.

20 × 20		60 × 44		Plain Weave		Width 63"
20 × 20		60 × 56		Plain Weave		Width 63"
20 × 20		96 × 48		Drill Weave		Width 63"
20 × 20		108 × 56		Drill Weave		Width 63"
20 × 16		108 × 56		Drill Weave		Width 63"

CARD 02

COMBED COMPACT COTTON

Premium combed compact cotton constructions offering superior softness, uniformity and premium surface quality.

40 × 40		124 × 70		Plain Weave		Width 63"
40 × 40		132 × 72		Plain Weave		Width 63"
40 × 40		120 × 96		Plain Weave		Width 63"

CARD 03

PC FABRIC (65/35 POLYESTER / COTTON)

Polyester cotton blended woven fabrics combining durability, easy maintenance and everyday performance.

40PC × 40PC		92 × 70		Plain Weave		Width 63"
40PC × 40PC		132 × 72		Plain Weave		Width 63"
45PC × 45PC		132 × 72		Plain Weave		Width 63"

WHY CHOOSE UDHAYAA TEXTILE PROCESSING

Delivering premium woven fabric processing through quality, innovation and dependable manufacturing.

At Udhayaa Textile Processing, we combine advanced processing technology, technical expertise and customer-focused manufacturing to deliver woven fabrics that consistently meet international quality expectations.

Our commitment extends beyond production—every order is supported by precision, reliability and long-term partnership.

Export Quality

Manufactured to meet international buyer expectations with consistent quality standards.

Reliable Delivery

Structured production planning and dependable order fulfillment.

Advanced Processing

Modern textile processing techniques delivering superior fabric performance and finish.

Scalable Production

Capable of supporting both sampling requirements and high-volume manufacturing.

Competitive Pricing

Efficient manufacturing that balances premium quality with cost-effective production.

Customized Finishes

Tailor-made processing solutions developed to match specific customer requirements.

Fast Sampling

Rapid sample development to accelerate approvals and product development.

Dedicated Customer Support

Responsive communication and technical assistance throughout every project.

01 HEAT RESISTANT SILVER

Overview

Heat Resistant Silver is a specialized woven fabric finished with advanced heat-resistant coating technology to provide thermal protection, durability and industrial-grade performance while maintaining a premium surface appearance.

Features

- Heat Resistant
- High Temperature Performance
- Durable Coating
- Industrial Grade
- Long Service Life

Applications

- Protective Wear
- Industrial Covers
- Heat Shields
- Safety Equipment
- Technical Textiles

R&D • Sampling • Bulk Production

02

ANTI FRAY

Overview

Anti Fray Finish minimizes yarn fraying along fabric edges, improving durability during cutting, stitching and repeated handling while preserving fabric integrity.

Features

- Fray Resistant
- Clean Edge Finish
- Improved Durability
- Better Stitch Performance
- Long Lasting

Applications

- Apparel
- Shirts
- Uniforms
- Home Textiles
- Industrial Fabric

Clean

Long
Lasting

03

PU + WATER REPELLENT

Advanced PU coated woven fabric with superior water repellent properties designed for outdoor and performance textile applications.

FEATURES

- Water Repellent
- PU Coated
- Durable Surface
- Moisture Protection
- Easy Maintenance

APPLICATIONS

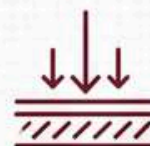

- Outdoor Furniture
- Bags
- Jackets
- Upholstery
- Protective Covers

04

ANTI SKID

OVERVIEW:

Specialized Anti Skid coated woven fabric providing enhanced grip, stability and safety across multiple industrial and consumer applications.

FEATURES:

- Anti Slip
- Enhanced Grip
- Durable Finish
- Wear Resistant
- Stable Surface

APPLICATIONS:

- Floor Mats
- Footwear
- Upholstery
- Industrial Covers
- Safety Products

05 PVC GLOSSY

Premium PVC Glossy coated woven fabric delivering a smooth glossy finish with excellent durability and water resistance.

Features

- Gloss Finish
- PVC Coated
- Waterproof
- Easy Cleaning
- Long Lasting

Applications

- Table Covers
- Bags
- Outdoor Products
- Upholstery
- Decorative Textiles

06

ACRYLIC + WATER REPELLENT

OVERVIEW:

Premium acrylic coated woven fabric engineered with water repellent technology for long-term outdoor durability and color retention.

FEATURES:

- Acrylic Coating
- Water Repellent
- UV Resistant
- Fade Resistant
- Durable Finish

APPLICATIONS:

- Outdoor Cushions
- Patio Furniture
- Canopies
- Upholstery
- Decorative Fabrics

07 STAINGUARD + COATING

Overview

Advanced Stain Guard coated woven fabric designed to resist everyday stains while maintaining fabric appearance and easy maintenance.

Features

- Stain Resistant
- Protective Coating
- Easy Cleaning
- Durable Finish
- Long Service Life

Applications

- Hospitality
- Restaurants
- Home Furnishing
- Upholstery
- Commercial Interiors

08

STIFF COATING

Overview:

High performance stiff coated woven fabric developed to provide enhanced structural stability and shape retention.

Features:

- High Stiffness
- Shape Retention
- Durable Coating
- Industrial Performance
- Strong Structure

Applications:

- Bags
- Industrial Products
- Belts
- Technical Textiles
- Structured Products

R&D • Sampling • Bulk Production

09

PVC MATTY

Premium PVC Matte coated woven fabric featuring a smooth non-reflective surface with excellent durability and protective performance.

FEATURES

- Matte Finish
- PVC Coating
- Water Resistant
- Easy Maintenance
- Durable Surface

APPLICATIONS

- Bags
- Wallets
- Home Furnishing
- Upholstery
- Decorative Products
